## **Media Release**

### **Tinna Rubber & Infrastructure Ltd. has won a major contract worth ₹107 crores from Indian Oil Corporation Limited for the Supply of Crumb Rubber Modifier (CRM) for a period of 2 years**

**May 10<sup>th</sup> 2023:** Tinna Rubber and Infrastructure Limited (BSE: 530475), India's largest integrated waste tyre recycler, has been awarded a 2-year contract for the Supply of Crumb Rubber Modifier (CRM) on rate contract basis by Indian Oil Corporation Limited for their plants at Mathura and Haldia for a total value of INR 107.5 Crores which is "over 50% growth in total value from previous contract".

Speaking about the contract, Mr. Gaurav Sekhri, Joint Managing Director said, "As India's largest waste tyre recycler and supplier of Crumb Rubber Modifier we are delighted to announce one of the largest awards won by the company. This order by IOCL is testament of the confidence in our company's product quality and strong operational efficiencies. As a recycler of waste tires Tinna Rubber is playing a vital role in caring for environment by using waste tires, which is otherwise a serious environmental and health hazard, and creating a circular economy for India." This is also validation of government efforts to promote circular economy in the country".

#### **About Tinna Rubber and Infrastructure Limited (TRIL):**

Tinna Rubber & Infrastructure Limited (TRIL), was founded in 1977 under the visionary leadership of Mr Bhupinder Kumar Sekhri. The company transforms end of life tyres into rubber and steel, which further have application in new tyres/conveyor belts and other rubber moulded products and roads. Steel derived during the process is used for making steel abrasives. TRIL's business model is one of the foremost models of benefits of circular economy. Today the company is the largest integrated waste tyre recycler in India and among the global leaders in the manufacturing of recycled rubber materials, with manufacturing facilities spread across India at Panipat (Haryana), Haldia (West Bengal), Gumudipoondi (Tamil Nadu) and Wada (Maharashtra). TRIL has captured a substantial market share by maintaining high quality, reliability and customer satisfaction.
